

Con-Space® Link

Communication Device

- Provides superior clarity through a full duplex communication system
- Designed to transmit and receive communications hands-free
- No batteries required for operation
- One-button security - attendants are quickly alerted to an entrant's emergency through an alarm button located on housing
- Can be mounted to all existing AV-2000® facepieces with a simple 1/4 turn universal mounting bracket
- Uses military audio connectors with stainless steel housing and gold plated self-wiping contacts
- Molded from thermoplastic for more durable construction
- Fully operational with any Con-Space CSI-1000, CSI-2000 or Rescue Hardline Communication System from Con-Space Communications, LTD
- Lightweight, weighing only 7 oz (196 g) with battery
