

Speed-Evac®

Mouthbit Respirator

- The Speed-Evac® mouthbit respirator is designed for emergency escape respiratory protection against a variety of toxic gases in low level concentrations
- Small, lightweight and ergonomically designed so it can be donned for immediate emergency escape protection
- Available in two models: Acid Gas (90-AG) or Ammonia (90-AM)
- One size fits all
- Requires minimal training and is completely disposable
- Comfortable mouthbit, chin rest and easy to use nose clip
- Choice of either a disposable plastic pouch or reusable ABS case
